Bitgold Acceptance Test Plan

Feature: In-game Bitcoin transactions between player and developer's Bitcoin addresses
Case Id: BGAT0-1

Test Information:

Tester: Jared Schroeder CIT025989
Environment:
Associated Files:
Date:
Status: Untested

Steps:

#	Task	Exp. Result	Result	Status
1	Open BitgoldGame.exe	Game opens with no errors		
2	Navigate to the shop menu	Shop menu can be accessed		
3	Attempt a Bitcoin purchase, providing Jared Schroeder's address and private key	Purchase is successful and has effect on gameplay (e.g. unlocking a higher jump, or invincibility)		
4	Log into Blockchain.info to validate transaction	Transaction details from in-game transaction are mirrored on the Blockchain website		
5	Close BitgoldGame.exe	Program closes with no errors
